On Saturday, January 11 the One Heart Project (OHP) made a difference to one of the Soweto Organizations.

The Ammish Community Development was fortunate to receive clothes and shoes.

Lerato Molema founder of OHP said they help other Non-governmental organizations with the donations.

"I do workshops as well as events mostly I

work with various Ngo's in terms of the donations to those who are needy. I started this project December 2019 with a clothing drive"

We distributed to three organizations and it happened that Ammish Community Development is the fourth organization. I hope the organization grows, hope to work with other organizations in terms of implementing mental health, concluded Molema

Mpumi Tladi Co-founder of OHP said we will be donating every term of the year. "It is

very heartwarming to be giving back to the community. Being a helping hand is just a big thing and your heart also feel at ease to see the other person smiling because of you."

Tladi added we started donating since varsity and we continued we never stopped so we hope we go far. There's a lot of people who are in need and we are more privileged, we just felt like let's actually give back.

Founder of Ammish Community Development Masechaba Mlotshwa said she is very

happy that her organization is recognized by other organizations.

"The children who have received clothes and shoes are very excited. I would like to say thank you to OHP and the parents are very thankful."

I wish that such events could happen every time it is such a privilege for the children to choose for themselves unlike being given something that has been packed, concluded Mlotshwa.
